

Limited Live Tech Requirements

Alpaca's tech consultants will need to conduct a technical sign-off before you advance into Limited Live. In order for a tech sign-off to be completed the app must be in an "Alpha" or "Limited Beta" stage, with core development having been completed. There are two options for facilitating Alpaca's Limited Live tech review:

Option 1: Invite us to your testflight or app by creating a pre-funded account with the email address `devsuccess-test@alpaca.markets` and password of choice.

Option 2: Schedule a demo with the tech consultant and do the review together on a call.

- ☒ User authentication
- ☒ Account funding
- ☒ Place buy orders
- ☒ Place sell orders
- ☒ Show positions
- ☒ Transaction History
- ☒ Statements and confirms (delivery to users)
There is separate a PDF packet similar to this one that lists the statements and confirms requirements.
- ☒ Events / notifications
- ☒ Other product testing, streamlining internal operations
- ☒ Account status in Events API and re-submissions
- ☒ Update personal identifying information
- ☒ Balance check
